

The Tax Freedom Zone: Tax Savings To Date

This table is used to calculate, by year, how much your tax savings are as a result of taking steps to reach the Tax Freedom Zone. This is a reproduction of the table appearing on page 192 of Tim Cestnick's book *The Tax Freedom Zone* and is provided for your use. Refer to page 190 in *The Tax Freedom Zone* for an example of how this table is used.

TAX SAVINGS TO DATE								
Year	Strategy: Appendix C		Impact on Tax Return		Impact by Year			
	No. ¹	Details	Year of Impact ²	Amount	20__	20__	20__	20__
Total Taxes Saved for the Year³								
<p>Notes:</p> <ol style="list-style-type: none"> The number corresponds to the number of the strategy in Appendix C. Each strategy will impact: Every year going forward (E), the current year only (C), or some future year (F). Taxes saved for the year are calculated by adjusting your tax return for the year by the changes listed for the year. This adjustment is done easiest using tax software. A tax professional can also do the calculation for you.
